

2025 Sauvignon Blanc

AVA: Willamette Valley AVA

Alc: 12.5%

Composition: Sauvignon Blanc 100%

Winemaking process:

Picked in two passes: one earlier and one later - to build layers of flavor and texture. The earlier pick preserves bright, fresh acidity, while the later pick brings more developed fruit character, including classic Sauvignon Blanc notes of stone fruit, tropical fruit, guava, and lychee.

Fermented in stainless steel to maintain purity and vibrancy. The skins are gently broken prior to pressing to enhance aromatic complexity without over-extraction.

Farming practices:

The earlier pick was hand-harvested from older-vine Sauvignon Blanc and the later pick was from younger vines at Blooming Vineyard, farmed using sustainable and organic practices.

Harvest Date: 9/10/2025 & 9/19/2025

Tasting notes:

Aromas of melon, lychee, citrus, and fresh apple, with a bright, expressive palate and a clean, refreshing finish.

Production:

Release date: May 2026
